CURRENT STATUS: Redact  
DATE OF LAST REVIEW: 08/11/1998

OPENING CRITERIA: INDEFINITE

COMMENTS:

FEDERAL BUREAU OF INVESTIGATION

SEE REVERSE  
STATION  
ACTION

The title of this case has been marked "changed" to include the MRP, an anti-CASTRO organization which has been operating jointly with the SNFE, utilizing the same office space, and one of whose members, NOEL SALAS, was captured in Cuba with ELOY GUTIERREZ MENOYO. The name Alianza Revolucionaria is also being added to the title, since the combination of the SNFE, ALPHA 66, and MRP frequently refer to themselves by this name. Several members of the Federacion Estudiantil Universitaria (FEU) are active with the SNFE, but the FEU, as a group, is not, and is of such minor significance that it is not being included in the new title.

1. *Chlorophyll a* (Chl a) and *Chlorophyll b* (Chl b) are the primary photosynthetic pigments in green plants. They are responsible for capturing light energy and converting it into chemical energy through the process of photosynthesis. Chl a is the most abundant pigment, while Chl b is present in smaller amounts. Both pigments absorb light most efficiently in the blue and red regions of the visible spectrum.

~~SECRET~~

interview RAFAEL FRAGA and SERGIO DIAZ, who were reportedly sent from New York to Florida to join the military section of the SNFE. DIAZ and FRAGA are two of the Cubans who participated in the SNFE walk from New York City to Miami. In view of the capture of GUTIERREZ MENOYO in Cuba on January 23, 1965, it is not believed that interview with DIAZ and FRAGA would be of value at the present time, and these interviews will not be conducted, UACB.
